

**Advanced Cardiovascular Magnetic
Resonance Imaging Course-
Hands on training
(SCMR Workshop)**

Satellite Lectures

19-21 September 2025

Onassis Hospital
Athens, Greece

DAY 1 – Friday 19th September 2025

14:00 - 14:30

Medtronic Satellite Lecture

Scanning patients with Implantable Electronic Devices: When and how in AI era
Evangelia Nyktari, M.D, Consultant-Cardiologist, CMR Unit Adult Scientific Supervisor, Onassis Hospital, Athens, Greece
Dimitris Verganelakis, Ph.D., Physicist, Onassis Hospital

DAY 2 – Saturday September 20th 2025

14:15 - 14:45

Siemens Satellite Lecture

Advancing Innovation Through Research and Collaboration
Karl Kunze, Senior Cardiac MR Scientist, Siemens Healthineers

DAY 3- Sunday September 21st, 2025

10:40 - 11:10

Bayer Satellite Lecture

Macrocyclic GBCAs: timing and dosage for optimal imaging and safety
Theodora Zaglavara, M.D., PhD, President- Elect Cardiovascular Imaging Working Group Hellenic Cardiac Society, European Interbalkan Medical Center, Thessaloniki, Greece

Healthineers The Siemens Healthineers logo graphic, featuring a cluster of orange dots of varying sizes arranged in a circular pattern.

Introducing the Aurora EV-ICD™ system

The Aurora EV-ICD system is the only
extravascular ICD to offer¹:

- Antitachycardia pacing (ATP)
- Small size (33 cm³) and PhysioCurve™ design
- 11.7 years projected longevity

**The extravascular system with
transvenous ICD features²**

92.6%

patients free from major
system or procedure-
related complications^{3*}

Establishing the rhythm.
Pioneering what's possible.
